Nitish Shakya

Chabahil, Kathmandu, Nepal | shakyanitish55@gmail.com | 9869692964 | github.com/shakyanitish

B.Sc. CSIT graduate with hands-on professional experience in SQL data processing, Python scripting, and backend web development. Seeking a Trainee role at Cedar Gate Technologies to support ETL workflows, client data processing, and production engineering tasks.

KEY SKILLS

- SQL & Database Querying (MySQL, MongoDB)
- Python Programming & Data Processing
- Linux OS & Command-Line Operations
- Backend Development (PHP, Django)
- ETL Support & Data Pipeline Workflows
- Report Compilation & Documentation
- React.js, HTML5, CSS3, JavaScript
- Git, GitHub, Jupyter Notebook, VS Code

PROFESSIONAL EXPERIENCE

PHP Backend Developer *6 Months Longtail E-Media · Kathmandu, Nepal*

- Wrote and executed SQL queries to verify database records and ensure data accuracy across client systems.
- Built server-side modules for data handling, form validation, and database integration using PHP and MySQL.
- Identified and resolved production issues during deployment, collaborating with senior developers on fixes.
- Responded to requests from multiple teams efficiently within a deadline-driven environment.
- Contributed to live client websites: himalayantightlines.com · atithigroupnepal.com · jmt.org.np

PROJECTS

Django Backend CMS System *Python · Django · MySQL*

- Built a full CMS backend with CRUD operations for articles, users, and categories — mirrors client data management tasks.
- Implemented role-based authentication and structured SQL queries for secure data access.

Brain Tumor Detection Using CNN *Python · TensorFlow · Keras*

- Designed and trained a CNN on MRI data; managed the full data pipeline from ingestion to model evaluation.
- Applied data augmentation and fine-tuning to improve classification reliability.

English-to-Nepali Chatbot (Full-Stack) *MongoDB · Express.js · React.js · Tailwind CSS*

- Developed a bilingual full-stack chat application with persistent storage and real-time translation integration.

MediaPipe Hand & Face Detection *Python · OpenCV · MediaPipe*

- Built real-time gesture recognition and facial landmark tracking; evaluated accuracy under varying conditions.

EDUCATION

Bachelor of Science in Computer Science and Information Technology (B.Sc. CSIT) *8th Semester — Completed*

Amrit Campus, Tribhuvan University, Kathmandu, Nepal

ACHIEVEMENTS & INVOLVEMENT

- Completed 6-month professional backend development internship with live client project deployments.
- Active contributor to personal GitHub repositories demonstrating continuous self-directed learning.
- Participated in AI/ML-focused academic projects and collaborative university coursework.
- Consistently explores new technologies through self-study and experimentation.
