SUMMARY

Backend developer with 1 year of professional experience in PHP and Laravel, building CMS platforms and integrating payment gateways and banking APIs for live client websites. B.Sc. CSIT graduate who also builds Python, Django and machine learning projects. Seeking a full-time backend developer role.

TECHNICAL SKILLS

Backend	PHP, Laravel, Python, Django, Express.js, REST APIs, Payment Gateway & Banking API Integration, CMS Development
Databases	MySQL, SQL, MongoDB
Frontend	HTML, CSS, JavaScript, React.js, Tailwind CSS
Machine Learning	TensorFlow, Keras, OpenCV, MediaPipe, CNN
Languages & Tools	C, C++, Java, Git, GitHub

PROFESSIONAL EXPERIENCE

Backend Developer (PHP & Laravel) | Longtail E-Media, Kathmandu, Nepal *1 year*

- **Built custom CMS systems** in PHP and Laravel so clients can manage their own website content.
- **Integrated banking APIs and payment gateways** into client systems for secure, reliable online transaction handling.
- **Designed and built APIs** to support client-facing features and third-party integrations.
- Converted static websites into dynamic, data-driven systems, with server-side modules for data handling, form validation and database integration in PHP and MySQL.
- Modified and extended existing backend systems to meet client-specific requirements and business logic.
- Wrote SQL queries to verify database records and data accuracy; diagnosed and resolved production issues during deployment.
- Worked with senior developers and handled requests from multiple teams in a deadline-driven environment, turning client requirements into delivered features.

SELECTED CLIENT WEBSITES

Himalayan Tightlines (himalayantightlines.com)
Hotel Moonlight (hotelmoonlight.com)
Edmark College (edmark.edu.np)
Jayanti Memorial Trust (jmt.org.np)

Sherpa Adventures (sherpaadventure.com)
Ideal Model School (idealmodel.edu.np)
Longtail E-Media (longtail.info)

PERSONAL PROJECTS

Django Backend CMS System *Python · Django · MySQL*

- Full CMS backend with CRUD for articles, users and categories; role-based authentication and structured SQL queries for secure data access.

Brain Tumor Detection Using CNN *Python · TensorFlow · Keras*

- Trained a CNN on MRI data and managed the full pipeline from ingestion to evaluation; used data augmentation and fine-tuning to improve classification reliability.

English-to-Nepali Chatbot (Full Stack) *MongoDB · Express.js · React.js · Tailwind CSS*

- Bilingual chat application with persistent storage and real-time translation integration.

MediaPipe Hand & Face Detection *Python · OpenCV · MediaPipe*

- Real-time gesture recognition and facial landmark tracking, evaluated under varying lighting and camera conditions.

EDUCATION

B.Sc. in Computer Science and Information Technology (CSIT) *Completed 8th semester*

Amrit Campus, Tribhuvan University, Kathmandu, Nepal
